PROFESSIONAL EXPERIENCE

PredictRAM – NextGen Analyst Club **May 2026 – Oct 2026**
Equity Analyst Trainee Kakinada, AP / Remote

- Authored and published **20 institutional-grade research reports** covering data centres, corporate bonds, IPOs, renewable energy, defence manufacturing, and rare earths; attained cohort-highest evaluation score of **80.2%** on accuracy and downside risk disclosure.
- Executed **9 forensic error-correction audits** on seeded Ind AS financial statements for public firms (L&T, NTPC, Tata Steel, Titan, Bajaj Auto), detecting planted reporting discrepancies.
- Constructed an event-driven equity thesis basket that delivered a **5.83% net return** in a live market-tracking challenge.
- Conducted macroeconomic research on Indian banking NPA trajectories, household financial savings shifts, and retirement ecosystems.

Edify Equity **Apr 2026 – May 2026**
Finance Research Analyst Remote

- Constructed robust Excel-based discounted cash flow (DCF) models and sensitivity analyses to drive executive investment decisions; managed corporate revenue recognition workstreams and supported digital finance transformation pipelines.

Independent Valuation & Financial Advisory **Oct 2024 – Oct 2026**
Financial Advisor (Upwork & Fiverr) Remote

- Advised corporate clients on strategic capital allocation, DCF valuation, and sensitivity analysis, translating data into actionable thesis decks.
- Executed project budgeting, bidding research, and compliance audits for state-wise and central government tenders.
- Integrated Python with Power BI and Oracle DB to automate internal financial statements, variance tracking, and expense analytics.
- Investigated enterprise LLM workflows in wearable and connected devices in collaboration with Awign and Cloudflare Technologies.

Smartbridge (Smart Internz – APSCHE Recognised) **Apr 2024 – Oct 2024**
Data Analytics Intern Remote

- Developed interactive visual dashboards in Tableau and Python, accelerating monthly executive report generation turnaround by **25%**.
- Formulated advanced SQL queries and DAX measures to normalize multi-variable transaction logs and analyze conversion trends.

SELECTED FINANCIAL & FINTECH PROJECTS

Autonomous AI-Driven Personal CFO (GuardianFi): Engineered an automated financial intelligence engine calculating dynamic debt-to-income (DTI) thresholds, emergency liquidity runways, and algorithmic borrowing guardrails across fixed-income, equity, and insurance portfolios.

Automated Double-Entry Ledger & Accounting Engine: Built software converting raw banking feeds into automated cash books, general ledgers, journal entries, and real-time accounts receivable/payable (AR/AP) statements for enterprise record automation.

Executive Financial Performance Dashboard: Designed interactive Tableau and Power BI visual dashboards analyzing sales margins, working capital trends, and revenue composition across categories and geographic regions.
